

HEALTH, SAFETY AND ENVIRONMENT POLICY

KONTENA NASIONAL aims to be the service provider of choice in the total logistics business in the country and is committed to provide a healthy, safe and secure workplace for its employees, suppliers, and the public in addition to giving proper regard to the conservation and protection of the environment throughout its business activities and services.

The Management and the employees have shared responsibilities in ensuring that these commitments are fulfilled.

We are committed to:

- Comply with applicable legal and other requirements pertaining to Health, Safety and Environment aspect.
- Prevent and reduce any occupational hazards, incident and injury, ill health and environmental pollution.
- Assess health, safety and environmental risks at the workplace and implement preventive actions to reduce or control the risks to acceptable levels.
- Conserve resources by improving fuel efficiency and reducing waste generated from our activities.
- Promote awareness in Health, Safety and Environment among all employees and suppliers through the provision of appropriate training and continuous education.
- Practise cooperation and consultation with employees on health and safety as part of the commitment to engage with employees.
- Provide assistance to customers to address their Health, Safety and Environment needs.
- Conduct regular review to monitor the performance of the Health, Safety and Environment to meet the Company's objectives, target and programs for continual improvement.
